

07.42800 Financial Technologies and Services

Course Syllabus

Course Overview: This course introduces students to the technologies, systems, products, and services transforming the financial industry. Students explore digital banking, payment systems, financial data, cybersecurity, blockchain, artificial intelligence, financial applications, and emerging technologies while developing workplace and career-readiness skills.

a) Course Name

Financial Technologies and Services

Course Number: 07.42800

b) Pathway Name

Financial Technology (FinTech) Pathway

c) System Grading Scale

Grade	Percentage
A	90-100%
B	80-89%
C	70-79%
D	60-69%
F	Below 60%

d) Class Grading Scale

Category	Weight
Classwork / Daily Assignments	30%
Projects / Labs / Presentations	25%
Quizzes	15%
Tests / Unit Assessments	20%
Employability Skills / Participation	10%
Total	100%

Students are expected to complete assignments on time, participate in classroom activities, demonstrate professional behavior, and apply financial technology concepts through projects, simulations, research, and problem-solving activities.

e) Career Opportunities Related to the Course

- Financial Technology Specialist
- Banking Specialist
- Financial Services Representative
- Financial Data Analyst
- Fraud Prevention Specialist
- Blockchain Specialist
- Business Analyst
- Financial Software Developer
- Financial Analyst
- Digital Banking Specialist
- Payment Systems Specialist
- Cybersecurity Analyst
- Risk Management Analyst
- FinTech Product Manager
- Investment Operations Specialist
- Information Technology Specialist

- Compliance Analyst
- Loan Officer
- Financial Services Entrepreneur
- Credit Analyst
- Personal Financial Advisor

f) End of Pathway Assessment Related to the Pathway

Students completing the Financial Technology Pathway may participate in the designated Georgia-approved End-of-Pathway Assessment (EOPA) for the pathway. The assessment is intended to measure mastery of knowledge and technical skills developed throughout the pathway.

- Financial services and banking systems
- Financial technology concepts
- Digital transactions and payment systems
- Financial data and analytics
- Cybersecurity and fraud prevention
- Financial decision-making
- Emerging financial technologies
- Workplace and employability skills

Successful completion of the pathway and its related assessment gives students an opportunity to demonstrate college and career readiness and may lead to an industry-recognized credential when applicable.

Course Expectations

- Attend class regularly and arrive prepared.
- Complete assignments and projects by established deadlines.
- Participate actively in individual and group activities.
- Demonstrate professional and ethical behavior.
- Use technology responsibly and appropriately.
- Respect classmates, instructors, equipment, and classroom resources.
- Apply financial concepts to real-world situations.
- Maintain academic honesty in all assignments and assessments.

Instructional Methods

- Teacher-led instruction
- Financial simulations
- Case studies
- Individual and collaborative projects
- Digital applications and financial technology platforms
- Research activities
- Presentations
- Guest speakers

- Career exploration
- FBLA and other Career Technical Student Organization activities

Course Goal

By the end of the course, students will be able to explain how technology is transforming financial services, analyze modern financial systems, evaluate financial technology products and services, apply responsible financial practices, and identify education and career opportunities within the FinTech industry.

CENTENNIAL HIGH SCHOOL

INTRODUCTION TO FINANCIAL TECHNOLOGY

Course Syllabus | 07.42700 | 2026–2027

Finance Career Cluster • Financial Technology (FinTech) Pathway

Course Information

Course Name	Introduction to Financial Technology
Course Number	07.42700
Pathway Name	Financial Technology (FinTech) Pathway
Career Cluster	Finance
Pathway Sequence	1. Introduction to Financial Technology 2. Financial Technologies and Services 3. Coding for FinTech
College Alignment	University System of Georgia: FTA 2400 – Introduction to Financial Technology

Course Description

Introduction to Financial Technology is the foundational course in the Financial Technology pathway. Students explore emerging financial technologies and examine how technology and data analytics are changing banking, payments, insurance, investing, financial asset management, and other financial services. Students apply course concepts to real-world situations and use technology, research, problem solving, and communication skills to analyze financial technology products, services, companies, and trends.

Major Areas of Study

- Foundations and evolution of financial technology
- Money, banking systems, and the financial services ecosystem
- Digital payments, payment networks, and transaction processing
- FinTech companies, industry players, partnerships, and business models
- Data analytics and technology-enabled financial services
- Cybersecurity, privacy, fraud prevention, and consumer protection
- Digital banking, investing, insurance technology, and emerging financial platforms
- Innovation, ethics, regulation, and future trends in financial technology
- Employability skills, professional communication, teamwork, and FBLA integration

System Grading Scale – Fulton County Schools

Grade	Numeric Range
A	90–100
B	80–89
C	70–79
F	69 and below

Class Grading Scale

Suggested course weighting (teacher-editable):

Category	Weight
Classwork / Practice / Daily Assignments	40%
Tests and Quizzes	30%
Projects / Performance Tasks	20%
Participation / Employability Skills / Professionalism	10%

Note: These class category percentages may be adjusted to match department or school-level grading requirements.

Career Opportunities Related to the Course

- FinTech Analyst
- Business Systems Analyst
- Data Analyst / Data Scientist
- Fraud Prevention or Risk Analyst
- Cybersecurity Analyst
- Compliance Analyst
- Product Manager
- Software Engineer / Application Developer
- Database Administrator
- Digital Payments Specialist
- Financial Services Specialist
- Business Development Manager
- Account Manager
- Salesforce Administrator
- Financial Technology Entrepreneur

End of Pathway Assessment (EOPA)

Georgia EOPA participation applies to students who complete the designated three-course CTAE pathway sequence or are enrolled in the final course and on track to complete the pathway. **For the Financial Technology pathway, currently published pathway information does not identify a named GaDOE-approved Credential of Value/EOPA assessment. The school CTAE department will communicate the approved assessment or credential when one is officially designated.**

Student Expectations

- Attend class regularly and arrive prepared with required materials and charged device.
- Participate actively in discussions, simulations, labs, projects, and collaborative activities.
- Complete assignments by the established deadlines and monitor grades regularly.
- Use financial data, technology, and online resources responsibly and ethically.
- Demonstrate professional behavior, teamwork, communication, problem solving, and digital citizenship.
- Follow all school, district, classroom, device, and academic integrity policies.

Instructional Resources

Instruction may include teacher-created materials, Canvas/Teams resources, financial technology case studies, industry articles, videos, simulations, spreadsheets, online research, presentations, and project-based learning.

FBLA / Career Readiness

Future Business Leaders of America (FBLA) activities may be integrated into the course to strengthen leadership, career readiness, competitive-event skills, communication, teamwork, and community engagement.
